Work experience

Association ARIA (A group that develops digital products for museums)

Flutter developer intern

March 2022 - July 2022 (France)

- I have achieved to code the UI of the home menu, the tour and map's pages by doing pair programming, BDD and TDD with a result of the firsts user stories to migrate from ionic to flutter **mobile app**.
- I've added the feature to deploy the mobile app from the admin's page by using Symfony

CATID (Academic group that uses tech to solve divers issues in the region)

Mobile developer intern

April 2021 - August 2021 (Mexico)

- I've designed and coded the UI with Unity with a result of an augmented reality **mobile app** that scans a QR code and shows a 3d object
